The melancholy days have come—  
The saddest of the year.  
We soon must part with B. V. D's  
For other things, I fear.

Although the days are getting cool  
For B. V. D's and such,  
We may be forced to keep them on

#### Uncle Hallett Goes Sight Seeing

Uncle Hallett told me he would like  
his old friends to know just what he  
did see, and I told him we could try  
and they might print what a lot of  
things a boy of his age saw. The first  
day he was taken to Revere (Bauch)  
second day the subways and elevated  
railroad and all through the state  
house; third day, the old English  
state house and relief; fourth day, a  
sail down the bay to Nantasket and  
did not get back till midnight (pretty  
late for the boy); fifth day, down to  
the wharves to see the big ships and  
an auto ride in the afternoon and eve-  
ning in the suburbs completed the  
sightseeing. The next day to the  
doctor's and out to Hallow's Falls  
where he met his wife, and home  
tired and happy.—No. Hyde Park

#### About Ready to Hit the Map.

Mr. Toof, the owner of the Pratt  
farm, made a purchase in Johnson  
last week of the sleigh Bernie Pland-  
ers had made to take to fair. It cost  
over \$150 to build it; what would it  
cost to build one like it now? He al-  
so bought a two-seater carriage. Now  
that's the idea; get a pair of good  
steppers. The heat is none too good

brought in the finest bull in the coun-

#### The Way to Save Is to Save.

Lloyd George took the short way  
and the straight way with his minis-  
ters when his judgment told him the  
time had come to make a drastic re-  
duction in the British Government  
expenses. He talked the situation  
over with his colleagues, and then he  
sent each of them a letter in which  
he wrote:

"The time has come when each  
minister ought to make clear to those  
under his control that if they can-  
not reduce expenditures they must  
make room for somebody else to  
do it."

"That is the public temper, and it  
is right."

"The way to resume is to resume."  
The way to economize is to econom-  
ize. If the men on the job won't  
save, others will be found who will  
save. To stop waste, stop it.

The short way is the best way for  
Great Britain, for the United States,  
for New York State, for New York  
city, for every government and for  
every individual. The man or woman  
who is extravagant in domestic and  
personal expenditures may not be  
able to make room for somebody else  
at the head of the private treasury,  
but the present incumbent can re-  
form.

Talk will not reduce expenditures;  
shutting the pocketbook will.—New  
York Sun.

#### SPECIAL TRAINS TO STATE FAIR

They Will Run on Central Vermont  
and B. & A. Wednesday and  
Thursday

White River Jct., Sept. 5.—Arrange-  
ments have just been made whereby  
a special State Fair train will leave  
St. Albans at 6 o'clock Wednesday  
morning, Sept. 10, stopping at all in-  
termediate stations to and including  
Montpelier and Barre, and leaving  
here on the return trip at 6 o'clock p.  
m., or after the conclusion of the  
races.

The Boston and Maine railroad will  
run two special State Fair trains  
Thursday, one from Newport and one  
from Brattleboro. These trains will  
stop at all intermediate stations.  
They will be held here until the con-  
clusion of the races.

All the railroads have made a rate  
of a fare and one half for the round  
trip from any station to White River  
Junction and return on all days of  
the fair. This rate applies the same  
on special trains.

Sixty-five trotters have been entered  
for the several races on Wednesday  
and Thursday, the latter day being  
Governor's Day. The best racing of  
the season is promised. There are five  
races with purses of \$500 each, one  
1100 race and two new races arrang-  
ed to take the place of the freefall and  
the 2-12 pace, which did not fill.  
The State fair opens on Tuesday,  
Sept. 9, and continues four days. Good  
weather is promised throughout the  
week. The fair department will show  
420 head of pure bred stock. The  
horse department will have 127 Mor-  
rises and 80 head of standard and draft  
breeds. A big exhibition of pencherons  
will come from the Connecticut Agri-  
culture college. Both the sheep and  
swine departments will have large  
exhibits.

Wednesday and Thursday evenings  
the grounds will be open for the night  
carnival and midway and many people  
have made arrangements to remain  
here from the first day of the fair to its  
conclusion. Rooms in private homes  
may be obtained through the Board of  
Trade.

A rumor in circulation in some  
Washington county towns that the  
State fair had been cancelled is den-  
ied by those in authority. Nothing  
could be farther from the facts. The  
State fair will be held next week and  
the promise is made that it will be the  
best fair by far ever held on the  
grounds.

#### Solid Meat.

Another of the problems that our  
army in France disposed of in a prac-  
tical way was the supplying of fuel  
for heating and cooking purposes in  
the trenches. Solidified alcohol filled  
the bill because it was safe, conven-  
ient to handle and burned without  
odor or smoke. As a result of the de-  
mand, huge factories were built to  
produce this novel fuel. Now new  
uses must be found for the vast out-  
put of solidified alcohol.

Mr. I. Popper of New York city,  
who made its use of such practical  
value by inventions such as the mess  
kit stove, airplane food carrier, dug-  
out heater and various other devices,  
has again come to our rescue by in-  
venting a special kind of portable  
stove, ideal for picnics, camping, boat-  
ing and other outdoor excursions.  
The stove is made in the form of a  
suitcase of heavy steel and is provid-  
ed with a hinged drop which forms  
the front of the stove when it is  
erected. Folding feet beneath the  
stove serve to raise it an inch or so  
above the surface on which it may be  
placed. The fuel is supplied in the  
form of cans, which are placed be-  
neath the burner holes.—Philadelphia  
North American.

#### SHOOTS PIGEON, PAYS \$47.50

St. Louis Man Loses in Court After  
Argument With Bird's  
Owner.

St. Louis.—Shooting a single pigeon  
has cost Philip Hommel of Belleville  
a total of \$47.50.

The pigeon ate some of Hommel's  
garden seed and vegetables. Hommel  
killed it. Then Hommel got into an  
argument with Anton Schlinger, owner  
of the bird.

He brought a charge of threatening  
to kill against Schlinger. Justice  
Lautz ruled against Hommel in each  
of the four cases and the plaintiff  
was compelled to pay the costs, \$36.20.  
Then Schlinger sued Hommel for dis-  
turbance of the peace and Judge Lautz as-  
sessed a fine of \$5 and costs.

## This Wonderful Range With Two Ovens

Bakes Bread, Cake, Pies, Biscuits—Broils Steak and Cooks Nine  
Different Vegetables and Cereals All At One Time

Although it is less than four feet  
high it can do every kind of cooking  
for any ordinary family by gas, in  
warm weather, or by coal or wood.  
When the kitchen needs heating,  
The coal section and the Gas section  
are just as separate as though you  
had two ranges in your kitchen.

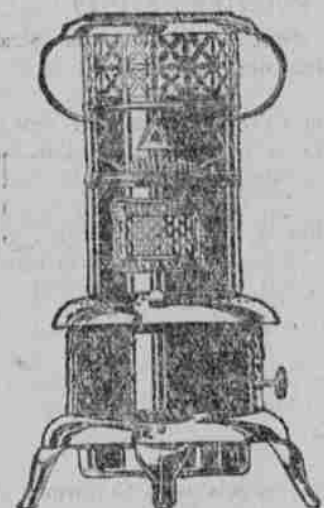

When in a hurry both coal and gas ovens can be operated at the same time using  
one for baking bread or roasting meats and the other for pastry baking—  
It "Makes Cooking Easy."

#### To Remove Paint Stains.

To remove paint from cloth, says  
Popular Mechanics Magazine, lay a  
pad of blotting paper on the side of  
the material on which the paint fell,  
and rub the other side gently with a  
soft piece of flannel dipped in chloro-  
form or benzol, both of which are  
paint solvents. As the paint dissolves  
it naturally passes into the most ab-  
sorbent material in contact with it—  
which is blotting paper—not into the  
adjacent cloth. Deep stains can be  
completely removed by this method.

#### The Winning Team Helps.

Dean Harold Butler of the Univer-  
sity of Kansas says it is remarkable  
how many people judge the university  
by the way its athletic teams win  
games. It is strange, but it has been  
true a long time, and probably always  
will be. For that reason, it seldom  
happens that a university to have a winning  
team.—Kansas City Star.
